Extraordinary Circumstances Extension / Exception (ECE) due to Hurricane Dorian

The Centers for Medicare & Medicaid Services (CMS) is granting exceptions\(^1\) under certain Medicare quality reporting and value-based purchasing programs to hospitals, skilled nursing facilities, home health agencies, hospices, inpatient rehabilitation facilities, renal dialysis facilities, long-term care hospitals, and ambulatory surgical centers, and Merit-Based Incentive Payment System (MIPS) eligible clinicians located in areas affected by Hurricane Dorian due to the devastating impact of the storm. These healthcare providers and suppliers will be granted exceptions if they are located in one of the states/counties listed below, all of which have been designated by the Federal Emergency Management Agency (FEMA) as an emergency disaster area.

The scope and duration of the exception under each Medicare quality reporting program and value-based purchasing program is described below. CMS is granting exceptions to assist these providers while they direct their resources toward caring for their patients and repairing structural damages to facilities.

CMS is closely monitoring the situation for future potential widespread catastrophic events and will update exception lists soon after any events occur in the future.

The affected counties designated by FEMA under the Hurricane Dorian Disaster Declarations for the state of South Carolina (DR-4464), the state of North Carolina (DR-4465), and the state of Florida (DR-4468), as of the date of this communication, are as follows:

The healthcare providers located outside of the states/counties listed above are not covered by this communication, but they may request an exception to the reporting

\(^1\) The terminology “exception” is used as a general term intended for ease of reference, to collectively refer to policies established under separate programs, and may not be consistent with the specific terminology established under each individual program.
requirements under one or more Medicare quality reporting or value-based purchasing programs they participate in using the applicable extraordinary circumstances exception procedure for the respective program(s). CMS will assess and decide upon each extraordinary circumstances exception request on a case-by-case basis.

If FEMA expands the current disaster declaration for Hurricane Dorian to include additional states/counties, CMS will update this communication to reflect the expanded list of applicable states/counties for which healthcare providers would be eligible to receive an exception without submitting a request. In addition, CMS will continue to monitor the situation and adjust exempted reporting periods and submission deadlines accordingly.

MIPS Eligible Clinicians

For the 2019 performance period, CMS is reweighting the MIPS performance categories for MIPS eligible clinicians located in the states/counties listed above. MIPS eligible clinicians who are located in the affected areas will be automatically identified by CMS. MIPS eligible clinicians who are automatically identified will have all four performance categories weighted at zero percent and will receive a MIPS final score equal to the
performance threshold, resulting in a neutral payment adjustment for the 2021 MIPS payment year. However, if automatically identified MIPS eligible clinicians choose to submit data on two or more MIPS performance categories (Quality, Improvement Activities, and/or Promoting Interoperability) as an individual or they are part of a group or virtual group that submits data on behalf of its clinicians, they will be scored on those performance categories and receive a 2021 MIPS payment adjustment based on their 2019 MIPS final score.

The data submission period for the 2019 performance period is January 2, 2020–March 31, 2020. Please note that this reweighting policy does not apply to MIPS eligible clinicians in MIPS Alternative Payment Models (MIPS APMs) who are subject to the APM scoring standard for the 2019 performance period.

**Circumstances Under Which an Exception Due to Hurricane Dorian Must Be Requested in Order to be Considered by CMS**

**Hospital Value-Based Purchasing (VBP) Program, Hospital-Acquired Condition (HAC) Reduction Program, End-Stage Renal Disease Quality Incentive Program (ESRD QIP), Hospital Readmissions Reduction Program, and Skilled Nursing Facility Value-Based Purchasing Program (SNF VBP)**

Hospitals, renal dialysis facilities, and SNFs, regardless of location, may request an exception to reporting requirements under the Hospital VBP Program, HAC Reduction Program, HRRP, and SNF VBP Program. Unlike reporting programs, CMS must also assess measure performance of affected providers to assess any systemic impact on performance, such as a possible increase in affected hospital readmission rates due to patients evacuated from flooded facilities.

**SNF VBP Program ECE Request Process**

SNFs may submit ECE requests based on individual circumstances by emailing the following information to the SNFVBP@rti.org mailbox within 90 calendar days of the extraordinary circumstance:

- Facility Name and CMS Certification Number (CCN)
- Date of the extraordinary circumstance
- Justification/rationale for requesting ECE
- Supporting documentation of the extraordinary circumstance

**ESRD QIP ECE Request Process**

Facilities impacted by Hurricane Dorian may request consideration for an exception for the ESRD QIP using the Extraordinary Circumstances Exceptions (ECE) Request form.
The form must be signed by the dialysis facility’s chief executive officer (CEO) or designee and submitted via email to the ESRD QIP Mailbox at esrdqip@cms.hhs.gov. This form and corresponding evidence must be submitted within 90 days of the extraordinary circumstances event for the ESRD QIP.

For further assistance regarding the ESRD QIP information contained in this message, please contact the ESRD QIP at esrdqip@cms.hhs.gov.
